

START YOUR FUTURE

a23 ICT & BUSINESS GRADUATE PROGRAM

We're looking for people with ambition and a passion to make a difference.

Our 12-month program is designed to:

- Enhance your skills and acquire new capability
- Apply your university qualification in real-world, real-time projects
- Continually challenge and propel your career at a rapid pace.

You'll gain exposure to diverse technologies as you complete rotations; work with your mentor and acquire certifications from:

- Microsoft
- Aruba
- Zscaler
- HPE
- Fortinet
- and more

We want innovative and dedicated learners.

Your program is personalised to help you achieve your goals. You'll have the option to work on:

- technical projects
- business operations
- sales and marketing.

Are you driven, collaborative and open?

Let's talk.

SEE YOUR FUTURE

a23 is an Australian-owned systems Integrator headquartered in Canberra. We provide specialist ICT services across diverse technologies, and are recognised as a valued strategic partner for Government and private sector organisations.

Culture

In our recent staff survey, 95% of our team said they'd recommend A23 as a great place to work! We are fun, focused and provide a safe, supportive environment.

Learning

We encourage continuous learning; support and fund industry certifications and further education.

Innovation

We work with best-of-breed technologies to design, build and manage innovative solutions in:

- Data and AI
- Cyber Security
- Cloud and Code
- Enterprise Networking
- Datacentre and Platform

Leadership

We are a founder-led company who value technical expertise, transparency and opportunity.
